

NEW IPD CYLINDER LINER KITS FOR DETROIT™ DD15

IPD is the on-highway truck engine expert.

When it comes to rebuilding your truck's engine, you can't afford to skimp out on quality. Engine failure due to cheap, inferior parts can mean delays with your truck in the shop, reduced productivity and loss of wages or even employment. However, when you buy IPD replacement parts for your DD15 engine, you can feel confident that you are purchasing high quality parts. All IPD parts begin with drawings by our in-house engineering team, who reverse engineer the DD15 specifications *to ensure a perfect fit every time*. IPD's liners are designed to ensure proper flange height, flange grooving, hone parameter and OD upper water jacket fit. Our liners are made from the highest quality cast iron and offer an APR style option. When you buy IPD parts you also get access to our knowledgeable customer service team and technical experts.

IPD's in-house engineer measures our cylinder liners to ensure a precise fit.

IPD CYLINDER LINERS FOR DD15 ARE THE FIRST OF MANY NEW PRODUCTS FOR DD15

The new IPD cylinder liner with or without anti-polishing ring (APR) is the first of many new products being developed for the Detroit DD15 engine. The kit includes cylinder liner, APR ring and seals.

Item Number	Description
A4720111910	APR Kit with Seal
A4720111810	Liner Kit with Seal
A0229975245	Liner O-Ring
A0239975345	Liner O-Ring

IPD PRODUCT AVAILABILITY:

IPD has been making replacement engine parts for Detroit Diesel for decades. In the next few months IPD will be releasing a wide range of quality, precision-engineered parts for Detroit DD15 engines including:

- Gasket Sets and Seals
- Bearings
- Piston Kits
- Ring Sets
- Engine Overhaul and In-frame Kit
- Valvetrain Components
